1.0 INTRODUCTION

1.1 PURPOSE

The "Levy Itzhak" app Test Report provides a summary of the results of test performed as outlined within this document.

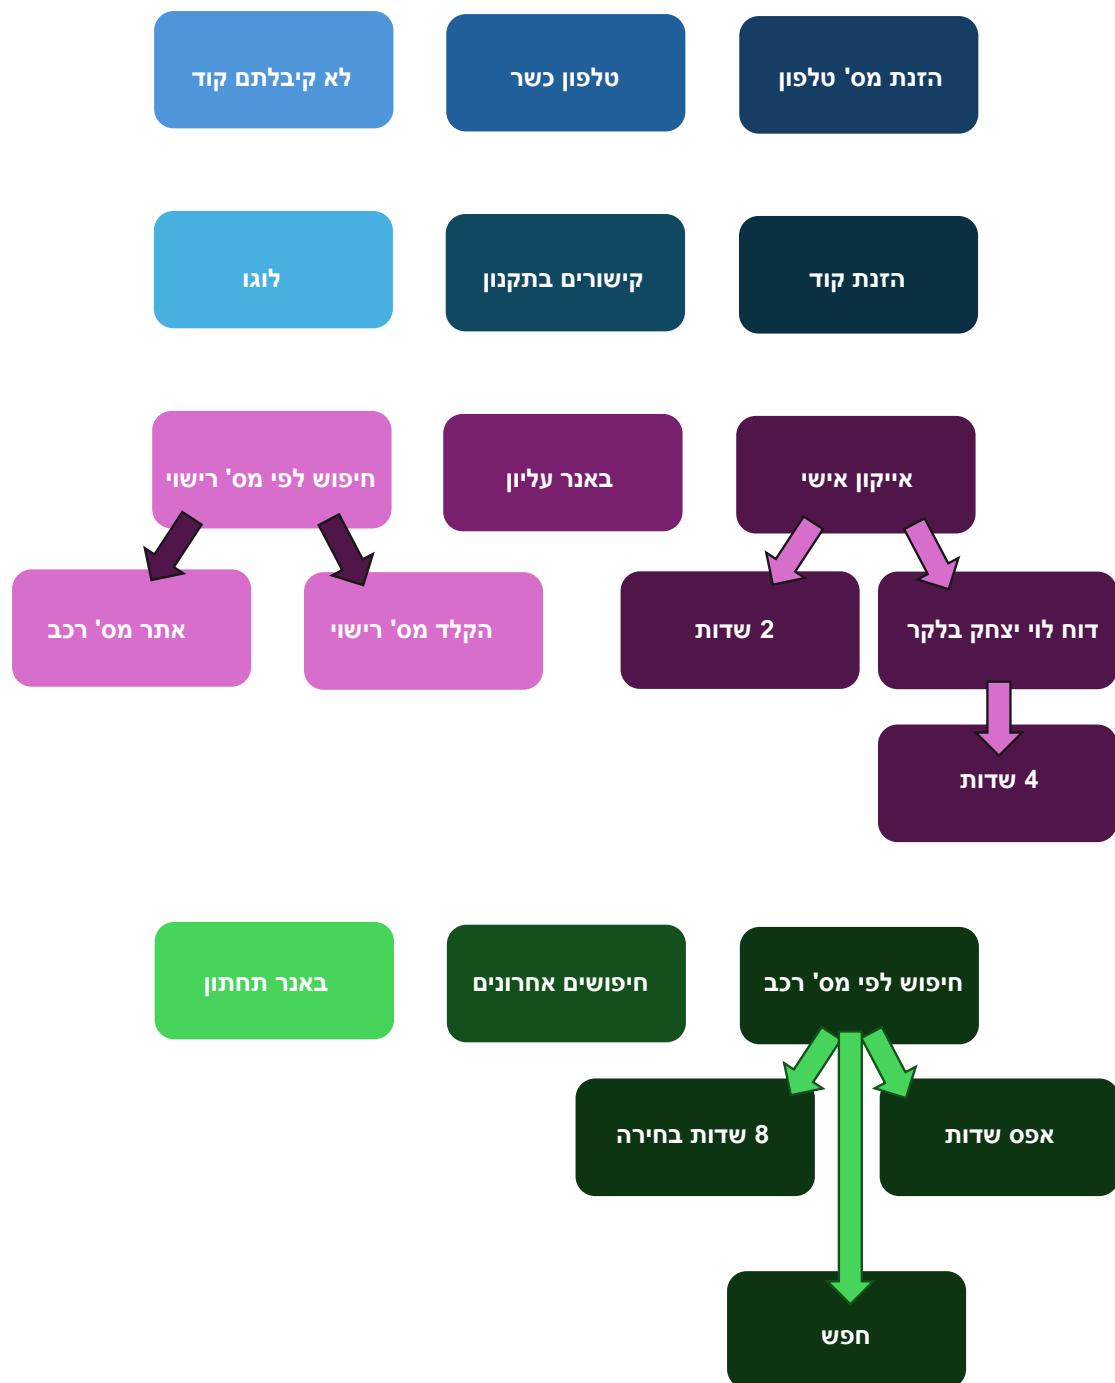

2. APPLICATION OVERVIEW

The "Levy Itzhak" app main functions is to enable people to find the vehicle price value they want to buy or sell, along with a vehicle background check.

3.0 METRICS

3.1 Tree Testing

עץ בדיקות-אפליקציה לוי יצחק

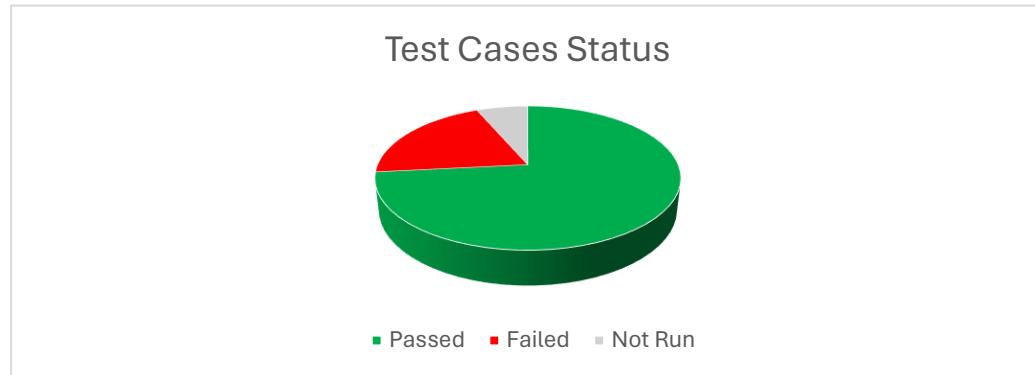

3.2 Test cases status

This table chart showcases the results (passed/failed) of the test cases that was performed on the App

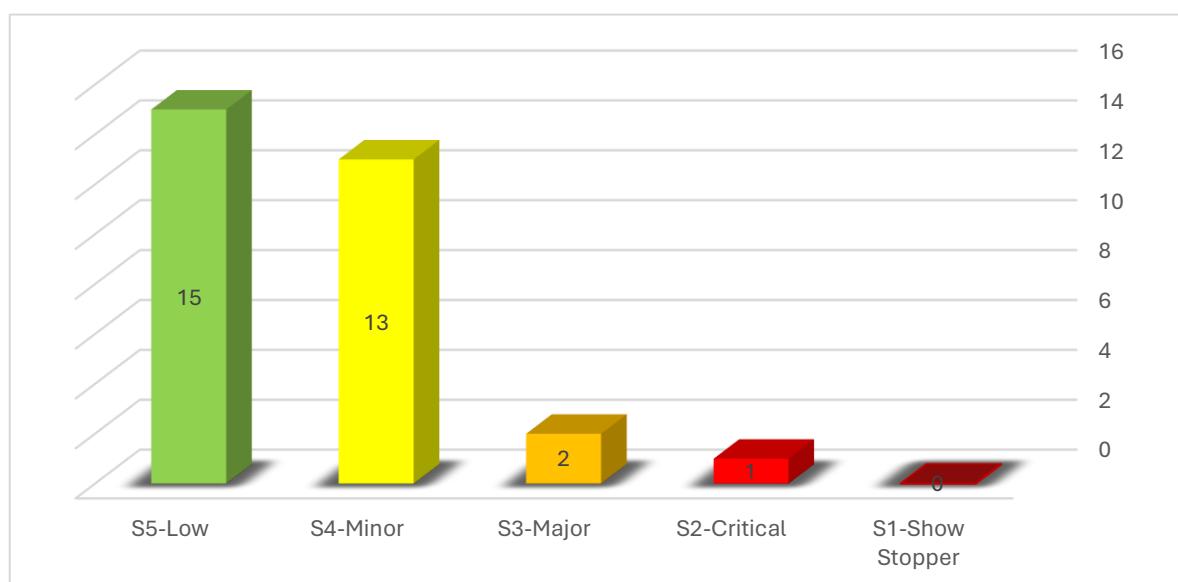

Passed	Failed	Not Run	Total
113	31	10	154

3.3 Severity Bugs Status

This table chart showcases the severity degree of the bugs cases that was found on the App

S1-Show Stopper	S2-Critical	S3-Major	S4-Minor	S5-Low	Total

4. RECOMMENDATIONS

1. Fixing the scrolling function to work properly. Scrolling pages on the App all the way down without bouncing.
2. Option to log out from the personal account.
3. Option to turn the screen horizontally.
4. Cancel engine search bar When searching electric car.
5. Option to cancel the accessibility logo so it won't show on screen.

5. CONCLUSION

After testing the main functions of The "Levy Itzhak" app No show stopper bugs were found, the critical bugs that was found should be addressed quickly as possible.

That been said the app meets its purpose and my recommendation is to release the app.
